Personal

This request for assistance comes from the RCMP's Federal Policing National Intelligence – Ideologically Motivated Criminal Intelligence Team (IMCIT) which has a mandate to provide intelligence, understanding, and visibility on ideologically motivated criminality.

IMCIT is submitting a request for information for activities related to the "Freedom Convoy" of truckers currently en route to Ottawa, Canada, with an expected arrival date of January 28-29, 2022. Several hundred truckers are reportedly driving to Ottawa to protest requirements that cross-border truckers be vaccinated against COVID-19 or be subjected to a quarantine period. The convoy has attracted significant interest from anti-vaccination groups and support from fringe extremist movements. The RCMP has observed death threats against the Prime Minister of Canada and other senior officials, as well as calls to storm Parliament Hill reminiscent of the attack on the United States Capitol on January 6, 2021.

There have been calls for solidarity across Canada and in the United States. At this time, the following ports of entry have been identified as possible locations of protest action: Woodstock, Maine; Sault Ste. Marie, Michigan; Sweet Grass, Montana. In addition, **Canadian supporters of the convoy have also advocated for American supporters to take GoFundMe employees hostage at the California headquarters until donations frozen by the company are released** (<https://twitter.com/JaneOCitizen/status/1486082102156169218>). Currently the GoFundMe sits at over \$6Million.

The RCMP is requesting information on the following:

- Indications of DVE/IMVE Threat Actors planning to cross the border and attend the rally.
- Planned protests outside of the Canadian Embassy or Canadian consulates.
- Protests aimed at disrupting or blockading land border crossings between Canada and the

United States.

- Calls for violence or other criminal activity in relation to the convoy with a nexus to Canada or Canadians.

Any questions, please direct them to myself.

As always, thank you for any assistance you may provide.

Garrett
